Storytime 10:45-11:00  
Centers 11:00-11:20  
Clean up and go home

Our three-year-old class typically consists of children who are new to a "school - like" setting. Our 3's curriculum focuses on helping the children to build social skills and emotional confidence to make friends, learn new things and have a special place of their own. Simply stated we want them to love school. We strive to help your child build the skills they need to be independent thinkers and learners. We work on personal independence skills such as unpacking their backpacks, washing their hands and choosing a morning activity to "work" on either with a teacher, friend or solo. "Work" is teacher designed to introduce cognitive skills such as colors, sequencing, sorting, turn taking and letter recognition. Throughout the morning many additional skills are worked into our Curriculum such as making choices, following directions, being safe with their bodies, sitting and attending in a small group, cleaning up, being kind and most importantly PLAY. We believe skills can be taught through both adult led and student led play experiences.
